

RN Student Nurse *Internship*

LEARN WHILE YOU WORK with a **STUDENT NURSING position at Stormont Vail Health**

Student Nurse Tech 1

Must be enrolled in your first semester of an accredited nursing program.

- Part of the care delivery team under the direction of a Registered Nurse
- Provide delegated, direct patient care intervention including the performance of non-sterile procedures
- Provide a safe environment for their assigned patients, complete the assigned work, monitor patients for changes in condition and to report those changes to the RN/LPN

Student Nurse Tech 2

Successfully completed first semester in an accredited nursing program or enrolled in their first semester of an accredited nursing program and is a Certified Nurse Assistant.

- An important member of the patient care team
- Uses acquired, clerical skills to assist in maintaining efficient workflow
- Ensure safe, quality care with a patient-centered approach focusing on continuity of patient care and satisfaction

Student Nurse Intern

Must be a current nursing student in good standing and would start in this role no more than 4 weeks prior to starting their last semester AND must have accepted an offer for a RN position at Stormont Vail Health to begin after completion of nursing school.

- Nurse Interns are team members typically working exclusively with their preceptors to bridge the gap from learner to performer
- End their practicum with supportive knowledge, relationships, and skills prior to beginning their career as a Registered Nurse at Stormont Vail Health
